

Haemochromatosis Diagnosis Checklist

Sixteen Questions for your GP

- Can you explain how the genetics work?
- What genotype am I?
- Can I have a copy of my blood tests?
- What is the best treatment plan for me?
- Where will I need to go for treatment?
- How should I prepare for a venesection?
- How can I easily explain haemochromatosis to my family?
- Should other family members be tested?
- Do I need to follow a special diet?
- Will I need a liver function test or biopsy?
- Do I need any further tests (such as an ultra sound or MRI)?
- Should I see a specialist?
- What are the implications for any existing conditions I may have?
- What happens if I don't get treatment?
- When should I make my next appointment?
- Where can I get further information?
